

L. EL DEBATTISTA

Fabricator | Artist Studio Assistant

PROFESSIONAL SUMMARY

Fabricator and studio assistant experienced in large-scale sculptural construction, woodworking, and mixed-material fabrication. Skilled in building structural armatures, handling artworks, and executing surface finishes for studio and exhibition environments. Comfortable working independently or under artist direction on complex sculptural projects.

EMPLOYMENT HISTORY

FABRICATOR

SOFTlab

2026 – Present

Flatiron, NYC

- ♦ Assisting with fabrication and installation of large-scale sculptural works and components.
- ♦ Working across manual fabrication processes in a collaborative shop environment.

ARTIST ASSISTANT (PROJECT-BASED)

Ester Partegàs

Nov 2025

East Williamsburg, NYC

- ♦ Fabricated large-scale sculptural components (6+ ft structures) under artist direction and independently.
- ♦ Measured, cut, and drilled plywood to construct structural armatures.
- ♦ Mixed and pigmented paper pulp for sculptural application over structural forms.
- ♦ Executed finishing processes including painting and surface treatments.
- ♦ Handled and transported large sculptural components within studio and between fabrication sites.

3D MODELER / DRAFTER

Robert Kalka Custom Woodworking

Jan 2025 – Mar 2025

Brooklyn Navy Yard, NYC

- ♦ Developed Rhino models for custom carpentry and fabrication projects from hand-drawn sketches.
- ♦ Collaborated with fabricators to translate models into buildable wood structures.
- ♦ Assisted with woodworking and fabrication tasks between modeling phases.
- ♦ Modeled a large custom spiral staircase to support fabrication planning and spatial fit.
- ♦ Produced renderings and design iterations for client review.

FAB LAB TECH

SUNY Purchase College

May 2024 – Dec 2024

Purchase, NY

- ♦ Produced fabrication-ready Rhino files and toolpaths for CNC routing of MDF and foam components.
- ♦ Operated and maintained CNC router, laser cutter, and 3D printers in a shared fabrication lab.
- ♦ Troubleshoot file errors, material issues, and machine setup during production.
- ♦ Guided users through Rhino-to-CNC workflows and fabrication problem-solving.
- ♦ Enforced safe machine operation and performed routine shop maintenance.

STEEL & WOOD SHOP TECH ASSISTANT

SUNY Purchase College

Sep 2022 – May 2023

Purchase, NY

- ♦ Operated MIG welding equipment and woodworking machinery including table saws, drill presses, and sanders.
- ♦ Assisted in structural builds and fabrication projects.
- ♦ Performed equipment maintenance and enforced safety standards.
- ♦ Managed material handling and shop logistics.

SKILLS

Wood Fabrication, Crate Building, Concrete/Mixed Materials, Sculptural Assembly, Art Handling, Gallery Installation, Mold-Making, Epoxy Resin, Airbrush Painting, Ceramics, Rhino, Digital Fabrication, Adobe Suite, MIG Welding.

EDUCATION

BACHELOR OF FINE ARTS, SCULPTURE

SUNY Purchase College

Sep 2019 – Dec 2024

Purchase, NY
